

The "Día de Brasil" (Brazil day) is an annual event celebrated in Barcelona in order to spread the Brazilian culture and strengthen the image of Brazil outside of its borders. The day works towards realizing Brazil as a tourist destination and promoting social cohesion and integration of the Brazilian community living in Spain.

This years edition promises a great deal of music, all for free, a success that attracted over 8000 people the previous year. The event acts as a meeting point between Brazil and Spain, through music, food and cultural activities.
